

TESTIMONIALS

It was nice to meet you last Monday. Just wanted you to know that our sweet little fur baby has settled in perfectly. She is the most perfect kitten imaginable and we all are totally in love with her. We can see that you have taken a lot of time socializing her. Thank you so much for trusting us with this sweet baby kitten. Many blessings.

Zelda and Luca F, Brooklyn, NY

We purchased Lola from you a year and a half ago. She is the sweetest kitty and sleeps cuddle up with my daughter every night! I am so pleased that Lola has chosen my daughter as her special person as she is an only child and the attention she gets from the kitten is great for her. And on top of all those great qualities, Lola is truly hypoallergenic. I was prepared to put up with my allergies so that my daughter could have a pet but I have not experienced a single symptom since Lola has come to live with us. Thank you so much. I sing your praises to everyone who will listen.

Zach M., Newton, CT

Rachel and Rebecca are beautiful, friendly, and a huge part of my life. They are good-tempered cats and I'm very happy we have them both. I had never adopted a purebred cat before and you made the adoption process so easy! Thank you so much for these wonderful cats. Keep on breeding them so others can enjoy them as much as I am.

Dan S., Elmira, NY

We are so happy to have Paisley in our family. We were sad for many years because we did not have a pet due to allergies. But now we enjoy our life with a new member of the family. We got Paisley about a year ago and she is the most intelligent cat I have ever met. She even seems to be able to tell the time as she is always waiting for us in the window when we return from work. Thank you so much for her.

Thought it was time to check in with you guys and let you know that Roger is doing just great. We had a few slight allergy issues right at the beginning, but nothing compared to an ordinary cat. After a week or so, we were totally amazed. We are symptom free. We are SO in love with him! Thanks so much!

Gina G., Old Tappan, NJ

That tiny little kitten, Zoey, that we received from you back in 2016 is now a big, gorgeous Siberian. She has been the best experience we could have asked for. She is extremely affectionate, loving and wonderful. She is our shadow – following us around from room to room, supervising just about everything that we are doing. She even waits for us by the door when we leave the house. She travels well. We took her on a 4-hour road trip to vacation cabin, and she did great. We had a litter box with us and did one potty break for her, and she was fine with no accidents. Thank you so much. We plan on coming back in the Fall for another kitten. Oh, and by the way, no allergy issues whatsoever since getting Zoey.

Kaitlyn M., Hyde Park, NY

I knew when I got Ollie that he was going to be the joy of my life but I did not realize what a life saver he would be. Shortly after we got Ollie, my husband died unexpectedly. Ollie was my constant rock. He seemed to instinctively know that I was grieving and he sat with me and slept with me through the worst days of my life. When my friends would leave to go home, he was there to comfort me. I just don't know how I could have gotten through those first few months without him. He is truly a blessing. I feel that Ollie is my guardian angel in "feline" form. I thank you so much from the bottom of my heart for such a great cat.

Olga T., Clarks Summit, PA

Just want to drop you a few lines to let you know how it's going and say thank you. Life can be very hard with an ADHD child, and many people do not know the challenges that come with it. You had so much patience, and asked a lot of questions to make sure we got just the "right" kitten for our situation. You explained that a pet for a special-needs child has to have certain characteristics that you need to start looking for early in a kittens' life, and to work with that kitten for the specific needs. You explained certain things for us to do at home with our son Jeffrey and the kitten, with catnip, and to get them to bond together. After a few months, the difference in our son is amazing because of the kitten and the instructions and training you gave us. The kitten, now almost a full-grown cat, sleeps with Jeffrey, hangs out in his room with him on his bed, watches TV with him, lays on his chest purring when Jeffrey is laying down, etc. The bond with the kitten really calms and quiets our son, gives him some sense of peace. Our family life is so much better because of Toes – yes, that's what Jeffrey wanted to name him. Thank you so, so much for helping our son, and making our family so much better every day!

Tom, Marcy, Jeffrey and "Toes" F., Guilford, CT
